SUMMARY

Computer Science undergraduate (**CGPA: 9.13/10.0**) and **Full Stack MERN Developer** targeting **SDE roles**. Shipped production REST APIs, dynamic database pipelines, and automated reporting for **1,000+ enterprise users**. Combines hands-on web engineering with strong DSA fundamentals (**260+ problems solved**).

EDUCATION

Vellore Institute Of Technology, Bhopal, Madhya Pradesh Expected May 2027
B.Tech. in Computer Science and Engineering; CGPA: 9.13/10.0

R.P.M. Academy, Gorakhpur, Uttar Pradesh
Class XII (CBSE) — 90.6% May 2022
Class X (CBSE) — 96.6% May 2020

EXPERIENCE

Full Stack Development Intern – *Certificate* May 2025 – Oct 2025
amasQIS.ai | [GitHub](#) Muscat, Oman (Remote)

- Developed backend **REST APIs** for Employee Profile, Recruitment, and CRM modules using Node.js, Express.js, and MongoDB, connecting them to React.js components on a platform serving **1,000+ users**.
- Designed dynamic Mongoose queries for the Subscription module, replacing hardcoded values to ensure live data synchronization with backend state.
- Automated report and document generation using **ExcelJS** and **PDFKit**, enabling HR administrators to instantly export structured employee and recruitment data.
- Tested and verified API endpoints using Postman and Hoppscotch during feature development to ensure reliable request-response handling and seamless frontend integration.

PROJECTS

HangOut — Full-Stack Social Media Platform Dec 2025
React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Clerk, Inngest | [GitHub](#)

- Built a MERN-stack social platform enabling chronological feeds, connection management, and ephemeral 24-hour stories for privacy-focused communities.
- Implemented real-time private messaging using **Server-Sent Events (SSE)** with an in-memory connection registry, avoiding complex WebSocket overhead.
- Integrated **Inngest** for asynchronous background workflows (story auto-expiry and delayed reminder emails with retries) and configured media handling via Multer and ImageKit CDN.

ConfirmStay — Accommodation Listing & Review Platform Jul 2025
Node.js, Express.js, MongoDB, Mongoose, Passport.js, Cloudinary | [GitHub](#)

- Constructed a server-rendered accommodation marketplace using Express.js, EJS, and MongoDB under the MVC pattern for browsing and managing property listings.
- Secured user workflows with session-based authentication via **Passport.js** and resource-level authorization to restrict post modifications exclusively to verified owners.
- Applied **Joi** for server-side payload validation and structured Mongoose middleware hooks to execute cascading review cleanups on listing deletion.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+)

Frontend: React.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Bootstrap, EJS

Backend & Databases: Node.js, Express.js, RESTful APIs, MongoDB, Mongoose (ODM)

Developer Tools & Services: Git, Postman, Hoppscotch, Clerk, Inngest, Multer, Cloudinary, Vercel

ACHIEVEMENTS & LEADERSHIP

- Data Structures & Algorithms:** Solved **260+ problem-solving challenges** across [LeetCode](#) and [GeeksforGeeks](#).
- Merit Scholarship:** Awarded an **INR 42,000 Academic Scholarship** by school management for achieving 96.6% in Class X Board Examinations.
- Competitive Quizzing:** Secured **1st Prize** at the regional Gorakhpur Mahotsav GS Quiz (2018) and ABVP GS Quiz (2019) among 100+ competing teams.
- School Leadership:** Appointed as **House Sports Captain (2019)** and **House Prefect (2018)**, managing school athletic events and student governance.
